

Technical drawing of a vertical industrial vessel, showing dimensions in millimeters (mm). The vessel has a total height of 1250 mm. The top section has a diameter of  $\phi 700$  mm and a height of 40 mm. The main body has a diameter of  $\phi 800$  mm and a height of 99 mm. The bottom section has a diameter of  $\phi 880$  mm and a height of 38 mm. The vessel features a series of horizontal corrugations or ribs. The distance from the top of the main body to the bottom of the vessel is 1148 mm. The distance from the top of the main body to the bottom of the bottom section is 1018 mm. The distance from the top of the main body to the bottom of the bottom section is 850 mm. The distance from the top of the main body to the bottom of the bottom section is 680 mm. The distance from the top of the main body to the bottom of the bottom section is 512 mm. The distance from the top of the main body to the bottom of the bottom section is 352 mm. The distance from the top of the main body to the bottom of the bottom section is 302 mm. The distance from the top of the main body to the bottom of the bottom section is 102 mm.
